A shower was tendered Charles W. Hill and Miss Hattie Hall by the girls at the home of their parents, Mr. and Mrs. Hill, on Monday afternoon. They were presented a beautiful mahogany four legged and a 112 piece dinner set with old Colonial design in kingdom blue, the former a gift of the girls and the latter a gift of the boys. Over one hundred and fifty attended the shower.

A mock marriage was staged by friends from Holyoke and a delicious luncheon with a wedding cake as the feature was then partaken of. Dancing was later enjoyed.

The arriving home from attending the wedding of a friend, Miss Marion Hanson of High street was agreeably surprised to find a number of her friends waiting for her. The house was handsomely decorated and a four foot chest was filled with gifts, in honor of her approaching marriage. A mock marriage was held and a wedding cake partaken of. Those present were Mrs. Francis Perkins, Mrs. Frank Way, Ruth M. Nye, Hattie Maass, Ethel Perkins, Mrs. Frederick Herick, Mrs. Florence Dube, Dorothy Miller, Marion Clough, Mrs. Henry

WILLIMANTIC VOTERS RATIFY
NATCHAUG SCHOOL ADDITION

(Special to The Bulletin.)

Willimantic, Oct. 23.—The special town meeting today ratified by a ballot vote of 629 to 287 the resolution passed at a recent meeting to build an addition of eight rooms to the Natchaug grammar school. The meeting was opened at 3 o'clock in the town hall and by a special resolution was not adjourned until 8 o'clock in the evening to allow the mill workers time to vote. Town Clerk Frank P. Fenton called the meeting to order. Upon a motion by Eugene J. Randall, First Selectman Russell A. Andrews was appointed moderator. The warning was then read by Clerk Frank P. Fenton, and Eugene J. Randall then made the motion to keep open until 8 o'clock.

Walter R. King of the town school committee then made a motion to allow all present qualified to vote. This motion was objected to by Eugene J. Randall, who stated that according to the statute they were not permitted to vote unless their names were on the last corrected list of voters of the town, which was that of 1911. A statute book was secured and the law was read by Town Clerk Frank P. Fenton.

Mrs. H. C. Lathrop then moved that the meeting be adjourned, but this was not seconded, according to the chair. Mrs. B. A. Clough made the motion that the meeting proceed to the ballot, after which followed much discussion two and a half hours. Town Counsel William A. King was then called to the hall to render an opinion on the matter of voters. He stated that recently made voters were not allowed to vote, as their names were not on the last corrected voting list of the town.

After being held up about 40 minutes, the balloting then started. The box tender was James J. Lee, the checker of the men's list was Eugene J. Randall and the checker of the women's list was Huel M. Hyde.

The voting was very heavy from that time to about 5:45. Owing to the heavy rain, the voters did not appear in large numbers as were anticipated; however, they made a good showing and after the counting of the ballots cast it was found that 1,024 had voted during the meeting. Of these, there were about 700 women votes cast.

The final results were: Total number of yes votes, 629; total number of no votes, 287. The resolution was then voted approved by a majority of 212 votes.

The counters were James J. Lee, E. A. Goss, Eugene Randall and Huel M. Hyde. Moderator Russell A. Andrews read the results of the balloting and the meeting was adjourned at 8:15 o'clock.

Why Teeth Show
In pictures—and everywhere today
Millions are removing film

Have you noted how most pictures now show pretty teeth? And how countless people, wherever you look, show beautiful teeth when they smile nowadays?

Those are results of this new way of teeth cleaning, which millions now employ. Now we urge you to try it at our cost, and to start today.

Try combating film
Until late years, nearly all teeth were kept cloudy by a film. And in 50 people suffered from film attacks.

Film is that viscous coat you feel. It clings to teeth, gets between the teeth and stays. It forms the basis of dingy coats, including tartar, unless you constantly combat it. Stains are absorbed by that film.

It also holds food substance which ferments and forms acid. It holds the acid in contact with the teeth to cause decay. Germs breed by millions in it. They, with tartar, are the chief cause of pyorrhea.

Go get this tube. Its use will bring you a delightful revelation.

Two other new effects
Pepsodent brings two other effects which dental science has now proved essential.

It multiplies the starch digestant in the saliva. That is there to digest starch deposits on teeth which may otherwise ferment and form acids.

It multiplies the alkalinity of the saliva. That is there to neutralize the acids which cause decay.

The ordinary tooth paste brings just opposite effects. It decreases these two great tooth-protecting agents which Nature has provided. Pepsodent, with every use, gives them manifold effect.

Thus to millions of people in every clime Pepsodent has brought new beauty, new protection. The benefits will be life-lasting. Tooth conditions among whole races are being altered by this method.
